# VENUS ORGANICS 40+ YEARS HISTORY

A NEW WORLD BUILT ON NEW COLORS

Since 1984

**30+**  
Years of  
Experience

**900+**  
Customer  
Served

**18+**  
Countries  
Served

**54+**  
Dedicated  
Team

Venus Organics is a leading Indian manufacturer of high-quality dyes, founded by a dedicated technical team comprising Mr. Nikunj (BE Chemical) and Mr. Mahendra (B.Sc. Chemistry). With decades of expertise, we specialize in producing a comprehensive range of **Venfix Dyes**, **Acid Dyes**, and **Direct Dyes**, serving a global clientele. We believe that colors are fundamental to expression and life itself, and our commitment lies in providing the finest hues and shades to enrich the "fabric of life." Our journey of over 30+ years is built on strong relationships, trust, and an unwavering dedication to quality and customer satisfaction.

### Certifications We Have

## Why Choose Us?

### R&D and Quality Focus

We're always working to improve. Our team tests new formulas and finds better ways to make dyes that work harder for you. When you need something special, we're ready to help.

### Manufacturing Excellence

Good products come from good processes. Our experienced team uses quality equipment and proven methods to make dyes that work the way they should every time.

### Sustainability Initiative

We test our products thoroughly to ensure they're safe and effective. We also treat our waste responsibly and work to reduce our environmental impact. It's simply the right thing to do.

## Global Presence

### Core Values:

#### Innovate

Do something innovative.  
Different & Best

#### Inspire

Work as a team and focus  
on each other's strength

#### Implement

Value for our clients when  
they use our products

### Our Vision:

To be the dye supplier you trust  
completely for quality that never  
disappoints, service that genuinely  
helps, and practices that respect  
our planet.

### Our Mission:

We make dyes that work. We treat people  
fairly. We protect the environment. Simple  
as that.

## Reactive Dyes

Our Reactive Dyes create a permanent bond with cotton, viscose, and linen fabrics. This bond means the color becomes part of the fabric itself, not just a coating on top.

The result is simple: colors that stay bright through repeated washing and daily use. Your fabrics keep their original look longer, and your customers stay satisfied.

We offer a complete range of shades for all your dyeing needs from light pastels to deep, rich colors.

### Key Features

- ✓ Outstanding wash fastness
- ✓ Brilliant color shades
- ✓ Excellent light fastness
- ✓ High fixation rates
- ✓ Environmentally responsible

### Packaging Options

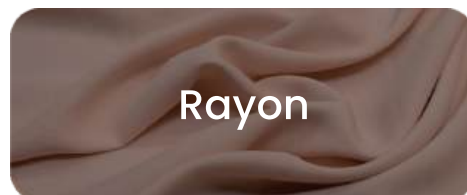

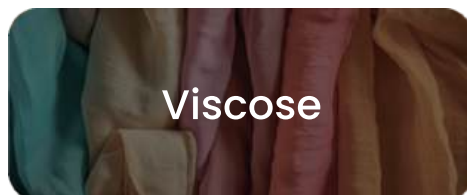

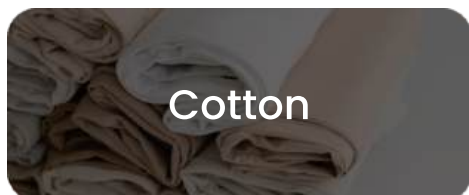

#### Standard Packaging 10/15/25 kg

- HDPE Bags
- HDPE Drums
- Corrugated Box

#### Logistics Ready

- Safe for air, sea & road
- Leak-proof & tamper-proof

## Acid Dyes

Our Acid Dyes are designed for protein-based and synthetic fibers like wool, silk, nylon, and leather. They deliver brilliant, vibrant colors with excellent clarity and brightness.

These dyes penetrate deep into the fibers, creating rich shades that hold up well over time. Whether you're working with delicate silk or durable nylon, our acid dyes provide consistent, reliable results.

Available in a full spectrum of shades for textile, leather, and specialty applications.

### Key Features

- ✓ Brilliant, vibrant shades with excellent brightness
- ✓ Superior fastness properties
- ✓ Wide color spectrum availability
- ✓ Consistent batch-to-batch quality
- ✓ Cost-effective solutions

### Packaging Options

#### Standard Packaging 10/15/25 kg

- HDPE Bags
- HDPE Drums
- Corrugated Box

#### Logistics Ready

- Safe for air, sea & road
- Leak-proof & tamper-proof

## Direct Dyes

Our Direct Dyes are the practical choice for cotton, rayon, paper, and leather. They're called "Direct" because they work without complicated processes just add them directly to your dyeing bath.

These dyes offer good color coverage and are economical to use. They're particularly valued in industries where cost-effectiveness matters without sacrificing decent color quality.

A smart solution for high-volume production and everyday dyeing needs.

### Key Features

- ✓ Excellent exhaustion properties
- ✓ High color yield
- ✓ Simple application process
- ✓ Economic dyeing solutions
- ✓ Wide range of shades

### Packaging Options

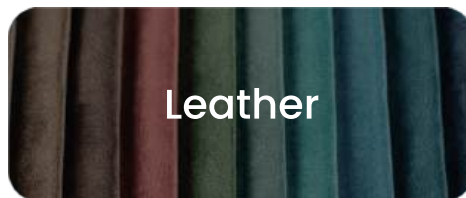

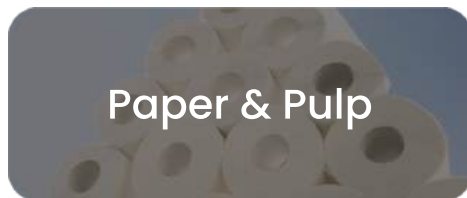

#### Standard Packaging 10/15/25 kg

- HDPE Bags
- HDPE Drums
- Corrugated Box

#### Logistics Ready

- Safe for air, sea & road
- Leak-proof & tamper-proof

### Direct Dyes Best For

**No Complexity. No Compromise.**

~Venus Direct Dyes – Simple. Strong. Superior.

## Quality Assured, Excellence Tested

Our commitment to quality is backed by cutting-edge technology and rigorous testing protocols  
State-of-the-Art Laboratory

Our advanced testing facility is equipped with modern instruments ensuring every batch meets international standards:

### Spectrophotometer Analysis

- Precise color measurement and matching

### Fastness Testing Equipment

- Light, wash, and rub fastness evaluation

### pH Testing Systems

- Optimal formulation verification

### Shade Matching Technology

- Consistent color reproduction and stable shades

### Stability Testing

- Long-term performance assessment

### Moisture Testing

- Helps make sure products stay fresh and last longer

## Quality Pillars

### 100% TRUSTABLE

Every product undergoes multiple quality checkpoints before dispatch, guaranteeing excellence in every consignment.

### LONG LIFE

Superior stability ensures extended shelf life and consistent performance throughout storage and application.

### ALWAYS HEALTHY

Formulations that are safe for textile applications and printing ink processes, meeting health and safety standards.

### CONSISTENT PERFORMANCE

Batch-to-batch consistency maintained through stringent quality control measures.

**"Quality is not an act, it is a habit. At Venus Organics, excellence is woven into every process, every formulation, every delivery."**

## Testing Parameters

- Color Strength & Brightness
- Solubility & Dispersibility
- Fastness Properties  
(Light, Wash, Perspiration, Chlorine)
- pH Value
- Heavy Metal Content
- Environmental Compliance
- Moisture Content
- DPA Test

## Green Initiatives

- Effluent Treatment Excellence
- Waste Reduction
- Water Conservation
- Resource Protection
- Sustainable Operations

## Let's Talk About Sustainability

### At Venus Organics, Sustainability is part of our Chemistry

#### Our Environmental Philosophy

At Venus Organics, we believe that business success and caring for the environment should go together. Our commitment extends beyond manufacturing exceptional dyes to protecting the natural resources that make our industry possible.

"We don't inherit the earth from our ancestors; we borrow it from our children. Our green practices ensure we return it better than we found it."

## Research & Development

### Our dedicated R&D team works tirelessly to:

- Develop new dye formulations
- Improve existing product performance
- Create customized solutions for specific client needs
- Research eco-friendly alternatives
- Enhance application efficiency

### Custom Formulation Services

- We understand that one size doesn't fit all. Our technical team collaborates with clients to develop
- tailored dye solutions that meet unique requirements:
- Specific shade development
- Performance optimization
- Cost-effective alternatives
- Application-specific formulations
